

# SELL MORE TOYOTA PARTS WITH AUTO PARTSBRIDGE

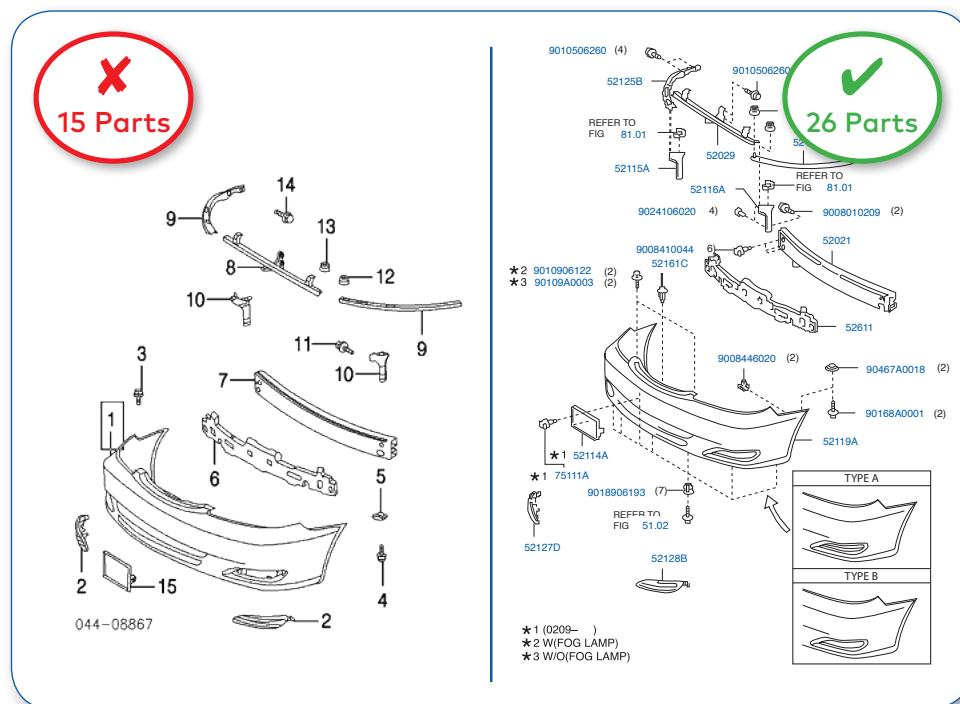

Auto PartsBridge® is the most comprehensive parts ordering system, that bridges the unique process of body shop collision estimation and dealership parts interpretations.

It helps Toyota dealerships sell more genuine parts and capture sales from the aftermarket.

## FULLY FUNCTIONAL TOYOTA EPC

Auto PartsBridge is built around the powerful Microcat Live EPC – giving you and your body shops access to the same Toyota parts data. This includes VIN-specific part numbers, paint and trim codes, detailed and printable illustrations, and parts pricing.

The automatic VIN interpreting pre-validates over 90% of parts, resulting in more accurate orders, reduced returns and supplemental orders, and decreased cycle time.

Estimating System

Auto PartsBridge

## SEAMLESS DMS INTEGRATION

With seamless integration between Auto PartsBridge and leading DMS systems, there's no need to manually key in order part numbers and quantities.

## PARTS ORDERING MADE EASY

### DEALER INITIATED ORDERING PROCESS

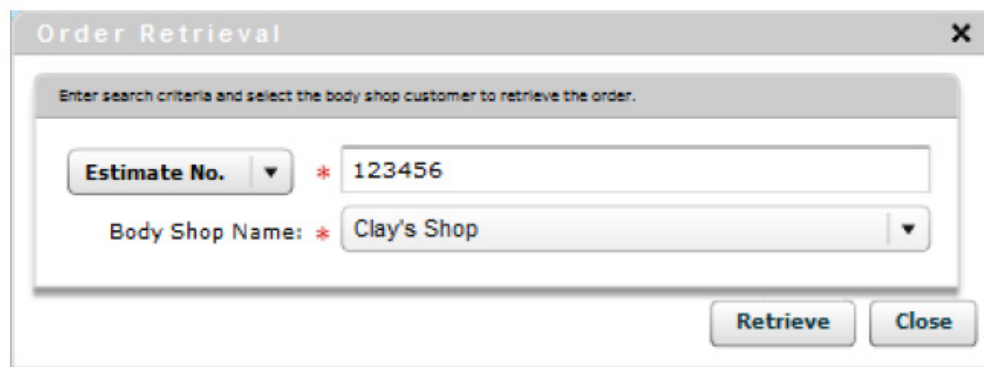

Do you have body shop customers who are hard to reach? Do certain shops have difficulties with ordering parts online?

Extend your customer service and conquest sales from the aftermarket by offering an easier parts ordering process for your body shop customers!

The Order Retrieval tool allows you to start and manage the entire parts ordering process on behalf of your customers. All they have to do is complete a simple, one-time set up and provide you with a VIN or Estimate number.

Retrieve orders from your body shops in 5 simple steps:

1. Click **Retrieve Order**.
2. Select **Estimate No.** or **VIN** from the drop-down list.
3. Enter the details into the corresponding field.
4. Select a name from the **Body Shop Name** drop-down list.

5. Click **Retrieve**. The new estimates will then be displayed in your list of orders.

Help your body shop customers in the way that works best for them! Whether they want to order parts electronically, over the phone or send you faxes, Auto PartsBridge helps you service all your body shop customers.

**Get Auto PartsBridge today!**

**"Auto PartsBridge has helped us nearly double our parts volume"**

— Todd Garrett, Parts Director, Capital Toyota of Chattanooga, TN

# ORDERING GENUINE TOYOTA PARTS HAS NEVER BEEN EASIER

Auto PartsBridge® is an easy-to-use online parts ordering system that allows body shops like you to order genuine parts directly from Toyota dealerships.

## HOW DOES IT WORK?

Send parts orders directly to Toyota dealerships using a simple 3 step process:

1. Export the file from your estimating system.
2. Open Auto PartsBridge.
3. Click Send to Dealer to deliver the parts order to the dealership.

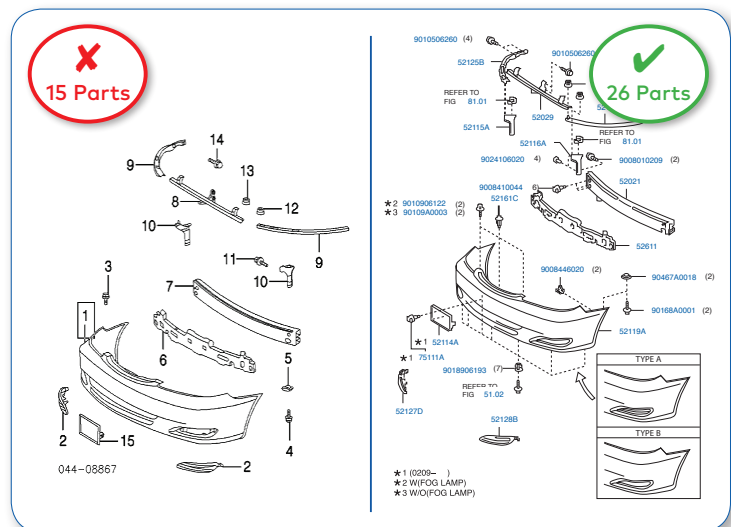

## FULL ACCESS TO A TOYOTA EPC

Auto PartsBridge gives you access to the latest VIN-specific Toyota parts data, including:

- part numbers
- parts pricing
- paint and trim codes
- bolts, clips and fasteners
- detailed illustrations

The automatic VIN interpreting pre-validates over 90% of parts, resulting in:

- accurate orders and reduced returns
- less supplemental orders
- decreased cycle time
